2013 ANNUAL REPORT

VERMONT
FISH & WILDLIFE DEPARTMENT

The Vermont Master Angler Program

Vermont's wealth of waters and abundant fish populations provide many opportunities to experience outstanding fishing. The Vermont Master Angler Program recognizes the achievements of anglers who catch trophy-sized fish from Vermont waters and celebrates the fishes' accomplishments in surviving and growing to such exceptional sizes.

The Master Angler program is a length-based program that sets "trophy sized" benchmarks for 33 eligible fish species. While these trophy sized fish are a challenge to catch, they are attainable for anglers that develop the necessary knowledge and skills.

The Master Angler program encourages anglers to target species that haven't traditionally been considered sport fish. To do so, they need to grow as anglers and improve their knowledge of fish habitat, behavior, and feeding preferences and develop new skills required to target and catch these species.

Award Categories

The program offers two award categories for adults and youths:

Trophy Angler: Anglers catching a fish exceeding the minimum qualifying length in any of the 33 species categories receive a certificate commemorating the catch. Their names and catches are also included in the Vermont Master Angler Annual Report, posted annually on the Vermont Fish & Wildlife website.

Master Angler: Anglers demonstrating the skill necessary to catch multiple species that all exceed the minimum qualifying lengths, in the same calendar year, are recognized as "Vermont Master Anglers" and receive a lapel pin at the end of the year. To qualify for the annual Vermont Master Angler Pin, an individual angler must submit qualifying entries for 5 or more species within a calendar year.

2013 - By the Numbers

2013 marked the fourth year of this popular program. Participation was down slightly from the program high experienced in 2012, not only in the number of entries received, but also in the number of individual anglers taking part (See Participation Trends, next page).

While 94% (643) of the entries were from Vermont anglers, the program also saw participation from non-resident anglers from Connecticut, Georgia, Illinois, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Texas, and Virginia. Entries were also received from Canadian anglers from the provinces of Ontario and Quebec.

2013 Trophy Fish Entries

A total of 686 trophy fish were entered in 2013 by 227 participating anglers:

- 477 entries from 166 adult anglers (24 Master Angler award recipients)
- 209 entries from 61 youth anglers (12 Master Angler award recipients)

Species Breakdown

The entries in the 2013 Vermont Master Angler Program were a testament to the wide variety of fish species and the diversity of angling opportunities available in the state. Of the 33 fish species eligible for entry in the program, only 3 had no entries for 2013: American shad, rainbow smelt, and lake whitefish. American shad and lake whitefish are the only remaining eligible species for which no entries have been received over the life of the program. These fish species are typically less common or more difficult to target and catch.

Catch & Release

Unlike previous Vermont record fish programs, the Vermont Master Angler Program accepts and encourages entries for caught-and-released fish. In 2013, 251 of the 686 (37%) trophy fish that were entered were harvested while 435 fish (63%) were released to grow bigger and be caught another day!

Locations – Where the Big Ones Were Caught

Similar to the diversity witnessed in the species composition of the 2013 entries, the waters from which trophy fish were caught was also varied. Trophy fish entries were received from 86 waters around the state. As in the past, the most entries came from Lake Champlain. The following table provides a list of waters where 5 or more of the 686 entries were caught:
