The Vermont Master Angler Program

Vermont's wealth of waters and abundant fish populations provide many opportunities to experience outstanding fishing. The Vermont Master Angler Program recognizes the achievements of anglers who catch trophy-sized fish from Vermont waters and celebrates the fishes' accomplishments in surviving and growing to such exceptional sizes.

The Master Angler program is a length-based program that sets "trophy sized" benchmarks for 33 eligible fish species. While these trophy sized fish are a challenge to catch, they are attainable for anglers that develop the necessary knowledge and skills.

The Master Angler program encourages anglers to target species that haven't traditionally been considered sport fish. To do so, they need to grow as anglers and improve their knowledge of fish habitat, behavior, and feeding preferences and develop new skills required to target and catch these species.

Award Categories

The program offers two award categories for adults and youths:

Trophy Angler: Anglers catching a fish exceeding the minimum qualifying length in any of the 33 species categories receive a certificate commemorating their catch. Their names and catches are also included in the Vermont Master Angler Annual Report, posted annually on the Vermont Fish & Wildlife website.

Master Angler: Anglers demonstrating the skill necessary to catch multiple species that all exceed the minimum qualifying lengths, in the same calendar year, are recognized as "Vermont Master Anglers" and receive a lapel pin at the end of the year. To qualify for the annual Vermont Master Angler Pin, an individual angler must submit qualifying entries for 5 or more species within a calendar year.

2014 - By the Numbers

The year 2014 marked the fifth year of this popular program. While more entries were approved in 2014 than in 2013, the numbers of anglers participating during the last two years were identical. Numbers of entries and participants continue to be lower than the program high observed in 2012 (see Participation Trends, next page).

While 94% (745) of the entries were from Vermont anglers, the program also saw participation by non-resident anglers from Arizona, Connecticut, Florida, Illinois, Massachusetts, Maine, New Hampshire, New Jersey, New York, and Texas. No Canadian anglers participated in the program this year.

2014 Trophy Fish Entries

A total of 790 trophy fish entries from 227 anglers were approved in 2014:

- 486 entries from 164 adult anglers (23 Master Angler award recipients)
- 304 entries from 63 youth anglers (12 Master Angler award recipients)

Species Breakdown

The 2014 entries in the Vermont Master Angler Program were a testament to the wide variety of fish species and the diversity of angling opportunities available in the state. Of the 33 fish species eligible for entry in the program, only 2 had no entries for 2014: muskellunge and lake whitefish. An American shad was entered in the program for the first time this year. Lake whitefish are the only remaining eligible species for which no entries have been received over the life of the program.

Catch & Release

Unlike previous Vermont record fish programs, the Vermont Master Angler Program accepts and encourages entries for caught-and-released fish. In 2014, 311 of the 790 (39%) trophy fish that were entered were harvested while 479 fish (61%) were released to grow bigger and be caught another day!

Locations – Where the Big Ones Were Caught

Similar to the diversity witnessed in the species composition of the 2014 entries, the waters from which trophy fish were caught was also varied. Trophy fish entries were received from 79 waters around the state. As in the past, the most entries came from Lake Champlain. The following table provides a list of waters where 6 or more of the 790 entries were caught:
