

Vermont Master Angler Program

2017 Annual
Report

The Vermont Master Angler Program

Vermont's wealth of waters and abundant fish populations provide many opportunities to experience outstanding fishing. The Vermont Master Angler Program recognizes the achievements of anglers who catch trophy-sized fish from Vermont waters, and celebrates the clean water and healthy habitats that allow these fish to survive and grow to such exceptional sizes.

The Master Angler program is a length-based program that sets "trophy sized" benchmarks for 33 eligible fish species. While these trophy sized fish are a challenge to catch, they are attainable for anglers that develop the necessary knowledge and skills.

The Master Angler program encourages anglers to target species that haven't traditionally been considered sport fish. To do so, they need to grow as anglers and improve their knowledge of fish habitat, behavior, and feeding preferences and develop new skills required to target and catch these species.

Award Categories

The program offers two award categories for adults and youths:

Trophy Angler: Anglers catching a fish exceeding the minimum qualifying length in any of the 33 species categories receive a certificate commemorating their catch. Their names and catches are also included in the Vermont Master Angler Annual Report, posted annually on the Vermont Fish & Wildlife website.

Master Angler: Anglers demonstrating the skill necessary to catch multiple species that all exceed the minimum qualifying lengths, in the same calendar year, are recognized as "Vermont Master Anglers" and receive a lapel pin at the end of the year. To qualify for the annual Vermont Master Angler Pin, an individual angler must submit qualifying entries for 5 or more species within a calendar year.

The diverse and abundant sport fishing opportunities enjoyed each year by anglers across Vermont are a direct result of fisheries management and restoration activities conducted by the Vermont Fish & Wildlife Department. These activities are funded through the Federal Aid in Sport Fish Restoration Program with money generated by user purchases of fishing equipment and motor boat fuels. The department's fisheries management and restoration projects help maintain and restore healthy aquatic ecosystems, clean water, and good habitat, benefitting anglers by supporting and providing quality sport and recreational fishing opportunities across Vermont.

2017 - By the Numbers

2017 was the eighth year of this popular program, and it had the highest number of entries received at 827. Overall participation (the number of individual anglers that submitted entries) was second highest overall, at 249 (behind 2012 when 289 different anglers participated). For more details, see Participation Trends, next page.

While 96% (797) of the entries were submitted by Vermont anglers, the program also saw participation by non-resident anglers from 11 other states: Connecticut, Florida, Illinois, Louisiana, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Virginia and Washington state.

2017 Trophy Fish Entries

A total of 827 trophy fish entries from 249 anglers were approved in 2017:

- 553 entries from 171 adult anglers (35 Master Angler award recipients)
- 274 entries from 78 youth anglers (12 Master Angler award recipients)

The Master Angler Program continues to appeal to anglers, adult and youth alike; however there appears to be a large turnover rate in participation. In recent years, slightly more than 50% of the adults and youth participating in the program each year are doing so for the first time ever. In 2017, 68% of the participating youth anglers were new to the program, while 49% of adults were first timers. At the same time, this also means that nearly half of the anglers that participated in previous years do not continue, or they “drop out” of the program, at least temporarily. The Master Angler Program offers as many personal challenges as anglers choose to take on, and the Department of Fish and Wildlife encourages participants to seek out opportunities to target different species and fish on different waterbodies. Learning to fish for new and different fish species on unfamiliar waters is challenging and exciting and encourages anglers to develop new skills and techniques, which adds to the excitement and enjoyment of the fishing experience.

Catch & Release

The Vermont Master Angler Program accepts and encourages entries for caught-and-released fish. In 2017, 551 of the 827 (67%) trophy fish that were entered were released to grow bigger and be caught another day! There were 276 entered fish (33%) that were harvested.

Locations – Where the Big Ones Were Caught

Similar to the diversity of fish species seen in the 2017 entries, the waters from which trophy fish were caught was also varied. Trophy fish entries were received from 81 different waters around the state. As in the past, the most entries came from Lake Champlain. The following is a list of waters where 6 or more of the 827 entries were caught. 684 (83%) of the total number of entries came from these 17 waters:
