NOTE: The Mud Creek operations building will **NOT** be staffed by Vermont Fish & Wildlife Department personnel in 2021.

October 14 and 16 are pre-registered dates that are reserved for permit winners who must self-sign-in the day of the hunt. On these dates, any vacancies due to no shows will be filled on the morning of the hunt **one hour** prior to shooting time. Standby hunters will have to regulate themselves as to who was on standby first.

All other Tuesdays, Thursdays and Saturdays (without registration times shown) during the open seasons will be self-registration days. On these days, permits will be available, for six blind locations, at the operations building, within the self-registration box.

Hunting hours on the Mud Creek Controlled Waterfowl Hunting Area are from legal morning shooting time until 11:00 AM. Hunters must be checked out of the area by noon.
